Intel European Literature Guide Help (Adobe Acrobat)

Introduction:-

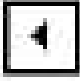

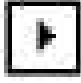

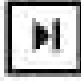

This PDF file contains information relating to Intel's European Literature Operation. Sections included in this edition of the European Literature Guide include the following:-

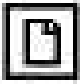

- Data On Demand
- FaxBack
- World Wide Web (WWW)
- Bulletin Board Services (BBS)
- Booksellers
- Literature Inquiry Numbers
- Component Distributors
- Systems Distributors
- Retail Distributors
- A complete listing of all orderable literature items arranged in Family / Part number order.

To view this edition of the European Literature Guide using bookmark's click  icon.

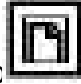

To view using Thumbnails click on  icon.

To View the pages only without Bookmarks or thumbnails click  icon.

The browse button     advance the document to the first or last page of a document, or forward or back one page at a time.

Click the Actual Size butt  to display the page at 100 percent

Click the Fit Page butt  to scale the page to fit within the window

Click the Fit Width butt  to scale the page width to fill the width of the window. Pressing this button and the Option (Macintosh) or Control (Windows) key fills the window with only the visible text and graphics on the page.

Use the Go Back and Go Forward butt   to retrace your steps in a document, moving to each view in the order visited.

The find too  searches for part of a word, a complete word, or multiple words (Non-Adjacent) in a document Ctrl+F will also initiate a search or continue the current search.

Data On Demand

Now Available !! Intel's Data On Demand service

This service is available either as a **FREE** yearly subscription or as a one off order for the current edition.

Each set comprises of 2 CD ROM diskettes containing information on Intel's complete OEM product Range

To place a **FREE** yearly subscription contact Neil Wood on FAX # 44 (0)1793 421056 quoting contact and delivery details.

For one off orders contact your local Intel **Literature inquiry number** quoting Part # **240897**.

Dear Customer

Dear Customer,

Thank you for requesting a copy of the current Intel Literature Guide.

You may also find our automated support tools a useful source of technical information across our full product range :

FaxBack

You will require a touch tone telephone and a fax at your site. FaxBack provides product and technical information for troubleshooting and information purposes. This service is presently only offered in English.

For Application support, Telephone : +44 (0)1793 496646

For retail support, Telephone: +44 (0)1793 432509

World Wide Web (WWW)

The Intel Presence server contains Information on all Intel products old and New as well as Press releases, future product information, screen savers and lots more.

If you have a Web browser (Mosaic,Netscape Etc) installed on your PC, click on the URL below to View The Intel Corporate Presence Server.

URL:- <http://www.intel.com/>

Bulletin Board Service (BBS)

Systems/Components

The Intel BBS provides product and technical information for troubleshooting and information purposes, as well as the latest drivers and updates for registered users of Intel products.

Telephone :+44 (0)1793 432955 (8 Data bits, No Parity, 1 Stop bit)

Technical inquiries should be directed to your original reseller or Intel distributor, as appropriate.

All items are subject to availability and maximum order levels.

Each literature item has been assigned a maximum order quantity by Intel.

Requests for quantities above the maximum level need to be approved by Intel.

The Customer can expect to receive up to the maximum quantity given stock availability.

Chargeable items are available via your Intel account representative, Local Distributor or one of the Booksellers Listed in the guide.
